## General English Programmes

These programmes are suitable for everyone and provide a good foundation in the main linguistic skills of reading, writing, listening and speaking. With the strong focus on communication skills, these courses also provide a solid foundation in the key skills required in the Trinity College London ISE Examinations as well as Cambridge examinations.

The method used is task-based, which means that by the end of each level students are expected to be able to complete a certain amount of tasks through English. There is a central course book and workbook and teachers supplement these using authentic materials such as newspapers, magazines, menus, manuals, brochures and a range of other books. All courses incorporate the use of electronic interactive whiteboards, the Internet and audio-visual technology.

We offer both standard and intensive General English programmes. We also offer a range of elective topics which students can opt for at the time of booking or indeed anytime during their programme.
